

Contraception Education Limited was established in 2001 to meet a growing need for sound and factual sex and relationship education. We provide accessible resources and training for those working with young people. Our aim is to have an impact on the number of teenage pregnancies and sexually transmitted infections through education, communication, and assertiveness skills.

www.contraceptioneducation.co.uk

provides fact sheets, information sources, live web links and downloadable presentations. Orders can be made on-line or by using the form at the end of this leaflet.

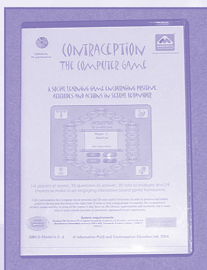

Training Days: Contraception Education also provides a series of training days covering a range of sexual health topics.

Contraception: the Board Game®

enables open discussion and deep learning about sexual health and contraception in a relaxed, enjoyable yet constructive peer-group setting.

Contraception: the Computer Game on CD

is an on-screen version of the board game for young people to play. Singularly, in pairs, groups or in larger teams.

Safer Sex: an Interactive learning Resource

Is available on both video and DVD. It comprises short trigger videos including drama, vox pops and professional contributions. AND a comprehensive book of supplementary information and learning activities

The Safer Sex Demonstration Kit provides

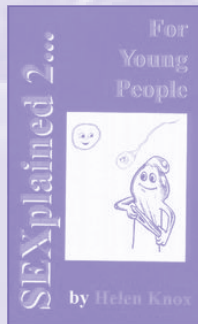

demonstration samples of barrier methods for protection against sexually transmitted infection, including dental dams and finger cots.

The Compact Contraceptive Demonstration Kit

supplies a range of demonstration samples of all of the methods of contraception.

Sexplained...® Books by Helen Knox are factual, easy

to read and understandable, with practical tips on how to decline unwanted sex, and negotiate safer sex in relationships.

About the Contraception Education Team...

Barbara Hastings-Asatourian, Managing Director and Senior Lecturer at the University of Salford, has professional experience as a nurse, midwife and health visitor. Which has included work with teenage parents supporting and developing parenting skills. She also delivered sex education and relationship advice in class and worked as a midwife delivering maternity care and parentcraft to young parents.

Julie Wray, Director and Research Fellow/Lecturer at the University of Salford comes from a nursing and midwifery background, and now chairs the Executive of Manchester Brook. Julie specialises in female reproductive health care research and is an author of Department of Health Guidelines and Audit in Womens' Health Care. She has also undertaken commissioned work for the Royal College of Midwives and co-authored Midwifery Practice in the Post-Natal Period. She is a member of NICE and sits on the Editorial Board of a Midwifery Journal. Julie is currently completing Doctoral Studies.
